## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/3/2005 has been entered.

### ***Election/Restrictions***

2. This application is in condition for allowance except for the presence of claims 12-21 to an invention non-elected without traverse. Accordingly, claims 12-21 have been cancelled.

### ***Allowable Subject Matter***

3. Claims 1-11 and 22-25 are allowed.

4. The following is an examiner's statement of reasons for allowance: Yasuoka et al. ("Yasuoka") US PG-Pub 2003/0098408 teaches a semiconductor photodetecting device comprising a tapered optical waveguide including a tapered core layer having a film thickness continuously increased toward a photodetector and an upper clad layer over the tapered core layer. However, Yasuoka fails to teach an upper clad having film thickness continuously decreasing toward the photodetector and having a surface height continuously decreased toward the photodetector over the entire range from near the photodetector to near the light incidence end surface of the tapered optical waveguide; and a ridge-shaped optical waveguide between the photodetector and the tapered optical waveguide selectively covering only the upper surface of

the core layer. The prior art does not teach or fairly suggest the above limitations in combination with other claim limitations nor would it be obvious to modify the references of record so as to yield the semiconductor photodetecting device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571) 272-1921.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on (571) 272-1915.
